

BEAM SPLITTERS

OP-TV

DOUBLE THE IMAGE IN THE EASIEST WAY

- Resistant
- Bright
- Focusable

OPTOMIC offers a complete range of video solutions for showing live images on a monitor, taking pictures or capturing videos, as well as the possibility of transferring the images to a PC or laptop.

The beam splitters are the perfect complement to our microscopes and colposcopes and are very easy to operate.

BEAM SPLITTERS **OP-TV**

■ **OP-TV CLICK**

This beam splitter has a quick connection for easy attachment to any endoscopy camera through the endocoupler.

A versatile solution for combining endoscopy and microscopy/colposcopy.

■ **OP-TV DC**

Beam splitter for compact digital photographic camera (camera not included). Photos and videos with internal storage file. Consult compatible camera models.

The best choice for taking still pictures and with the advantage of being wireless.

■ **OP-TV8**

Compact system with integrated video camera.

Video outputs: composite video and S-video (Y/C)

An effective system for quality procedures.

■ **OP-TV10 HD**

Compact system with integrated Full HD 1080p video camera.

Video output: HDMI

The professional solution with Full HD quality.

ALL OP-TV BEAM SPLITTERS ARE SIMPLE TO INSTALL AND EASY TO USE
